

Spine Services

Our Commitment to You

- » To provide the highest quality healthcare in an efficient and professional manner.
- » To deliver timely communication regarding patient progress to primary care and referring physicians.
- » To ensure appropriate patient follow up back to the referring surgeons.
- » To offer patients the most current options in pain management, when appropriate.

Relieve your pain. Regain your life.

We currently accept most insurance plans. Please call our office to confirm that we accept your insurance.

Northside Spine & Pain Specialists provides treatment and referral to patients with musculoskeletal spine conditions and complaints. Our vision is to offer individuals who may be experiencing new onset of symptoms or may be dealing with on-going untreated problems an array of medical treatment options. Our multi-disciplinary approach to spine care makes us unique and allows the patient along with the medical provider to tailor fit a spine care program that meets their unique needs and preferences.

We treat any conditions that involve the spine in a conservative and personalized manner. Our spine services are offered in cooperation with the Northside Hospital Spine Center.

Our mission is to be a valuable resource to the medical community and to patients by offering:

- **Excellent medical staff comprised of board-certified physicians, physician assistants, and nurse practitioners**
- **Excellent medical facility and technologies provided by Northside Hospital**
- **On-site diagnostic imaging services and neuroradiology**
- **Licensed on-site physical therapists trained in current techniques for the management of pain and spinal ailments**
- **Specialists in pain treatment, neurosurgery, and orthopedic surgery**
- **A thorough and comprehensive evaluation is performed on all patients**
- **Appropriate diagnostic tests are ordered**
- **Individualized therapeutic interventions offered**
- **No referral is necessary (patients can self refer)**
- **Walk-in patients accepted**
- **Appointments within 24 (in most cases) to 48 hours**
- **Insurance pre-certification**

Northside Spine & Pain Specialists strive to make the evaluation, diagnosis and treatment of back, neck and spine as simple as possible.

All information is from sources deemed reliable and is subject to errors, omission and could change without notice.

SPINE & PAIN SPECIALISTS

A Division of Northside Anesthesiology Consultants, LLC

Who We Are

Northside Spine & Pain Specialists are board-certified and fellowship trained physicians who utilize interventional therapies and medications to evaluate and manage acute, chronic and cancer pain.

Our specialized staff understands the importance of customizing pain treatments according to the cause and patient's level of discomfort – not take a “one size fits all” approach. Our services are offered in cooperation with Northside Hospital. Our multi-disciplinary approach combines pain management, neurosurgery, neuroradiology and physical therapy.

We are one of the few centers that incorporate minimal to moderate IV sedation, also known as “conscious sedation”, for procedures.

Patients can be seen within 24 to 48 hours in our Spine Center.

Our spine and pain treatment services are responsive to patient needs. We constantly strive to implement the latest diagnostic and treatment technologies and talents. We have just introduced Water-cooled Radiofrequency for sacroiliitis and refractory facet pain.

Relieve your pain. Regain your life.
