

## MEET DR. TROY AUSTIN

Palm Beach plastic surgeon, and Augusta native, Dr. Troy Austin has returned to the CSRA to open his office, Southeastern Aesthetic Surgery, to bring the Palm Beach approach to cosmetic surgery to his hometown of Augusta, Georgia.

A double Board Certified Plastic Surgeon, Dr. Austin has achieved acclaim for both his superior technical skills and his caring, amiable bedside manner. He is pleased to offer a broad spectrum of cosmetic surgical and non-surgical procedures.

### Surgical Expertise

Dr. Austin has extensive surgical expertise of breast, body, and facial procedures, with a special focus on breast enhancement, tummy tuck, facelift surgery, and the “mommy makeover”- a surgical restoration of breasts and tummy specific to each patient’s needs and designed to return women to their pre-baby shape.

In addition, Dr. Austin has mastered many minimally-invasive techniques, including SmartLipo, Brow Lift, and mini-facelift surgery, as well as non-surgical procedures such as Botox, dermal fillers and laser rejuvenation of the face, neck, chest, and hands.

## ABOUT US

Welcome to Southeastern Aesthetic Surgery!

We are committed to providing you with the highest quality of care and strive to meet your cosmetic needs.

Helping his patients find satisfaction with an outward appearance that matches their inner beauty is the mission of Dr. Austin and his staff. He explains, “Witnessing the amazing boost in self-confidence and energy level that is often a direct result of a cosmetic procedure is one of the most satisfying aspects of performing aesthetic surgery.”

### Dr. Austin’s Surgical Philosophy

For many, enhanced beauty is a dream that can often be achieved with the assistance of cosmetic surgery.

When considering a cosmetic procedure, there are many factors that patients take into account before making such a big decision. Patients are seeking a natural look that will provide proportion and balance, often without the stigmata of having “had something done”. Certainly all patients are seeking a surgeon with excellent surgical abilities and credentials. In addition, it is important for the patient to feel confident and at ease with their surgeon. It is paramount for each patient to find satisfaction with an outward appearance that matches their inner self.

Dr. Austin’s philosophy is simply that everyone’s inner beauty should be revealed for others to see and for them to enjoy.

## COSMETIC SURGERY

### Abdominoplasty (Tummy Tuck)

Powerful procedure to contour the abdomen and maximize muscular tone.

### Breast Augmentation

Improve proportions and shape of the breasts.

### Breast Lift

Procedure to restore breasts to a youthful position.

### Face and Neck Lift

## NEOGRAFT®

### Are you experiencing hair loss or hair thinning?

NeoGraft® is a surgical hair restoration procedure that uses Follicular Unit Extraction (FUE) to minimize discomfort and achieve better-looking results than traditional hair transplants. If you have considered doing something about your hair loss, but were nervous about pursuing past forms of hair transplantation, NeoGraft may be right for you. With NeoGraft, there is no linear scar that can be an unsightly problem with traditional hair transplant procedures. NeoGraft is an effective, permanent option for both men and women looking to treat baldness and thinning hair. Schedule a consultation to discuss your hair restoration needs. During your NeoGraft consultation, you and Dr. Austin will discuss your goals and develop a personalized treatment plan designed to give you the full head of hair you want. Before you know it, you'll be walking around looking and feeling younger and more self-confident.
